

BIORESONANCE INTERNATIONAL

Accredited Training

The MARS III Resonance System is a non-invasive device that analyses a person's hair sample to its database of over 30,000 rates.

As energy is the fundamental life force of the body when it comes to Health and Well Being, the ability to measure this and correct imbalances is what BioResonance therapy can offer.

The Health and Food Sensitivity or Intolerance Tests available with BioResonance are Non IgE-Mediated tests - that is the adverse reactions to foods for example, bloating, diarrhoea, headaches etc., do not involve an immune response or allergic reaction and are not considered true food allergies. Conditions that affect metabolism like lactose and alcohol intolerance or responses to food components such as caffeine, theobromine in chocolate or fructose in fruit and vegetables are intolerances or sensitivities.

Reactions to food can occur in any patient if a sufficient amount of the food is ingested. Symptoms that occur can be identified by the BioResonance device so that host factors can be isolated and treated.

Health Tests Available

**Wheat and Gluten Intolerance Test
\$80**

**Lactose and Casein (Dairy) Intolerance Test
\$80**

**Fructose and Alcohol Intolerance Test
\$60**

drinks
\$250**

**All the above tests include a Report of findings,
assessment and treatment recommendations.**

**Phone consultation is available at an additional cost.
This can be rebated if you have Private Health
Cover.**

Full Health Test

**Includes 6 body scans which offers the most
comprehensive overview of your Health and Well
Being**

- 1) Intake Clearance** - this scan lets you understand the area where you need to focus on eg physical body, emotional health, mental state or vitality etc.
- 2) Body Organs** - this covers all body systems and highlights problems and those needing most attention.
- 3) Burdens/Toxins** - a very useful scan that can identify ongoing problems that are affecting you.
As the body has a tipping point from health to disease, being aware of the burdens you are being exposed to can help you make the right changes to better health eg sleeping with your phone next to your pillow leading to poor sleep and headaches, antibiotics affecting GUT function then suffering irritable bowel syndrome or low serotonin in the GUT leading to panic attacks, anxiety or depression.
- 4) Food Intolerances** - testing over 400 different foods and drinks.
- 5) Vitamins, Minerals, Herbs, Enzymes, Amino Acids**
- lets you see which supplements are the right ones for you.

6) **Remedies** - personalised remedy based on your results.

This test comes with a full report and a phone consultation to discuss all findings with our Naturopath.

Private Health Rebates are available with consultations.

\$350

HAIR SAMPLE

How does it work?

You are required to send a small sample of hair no larger than the size of a postage stamp but a minimum of 10 hairs (see picture below). Hairs can be coloured and are not required to be pulled from the root, a small snip at the scalp is enough. Place the hairs in a clean tissue and into a clearly labelled envelope with your Health Form.

Mail your Envelope with the Health Form and Sample to;

AT Natural Therapies

2 Lunar Crescent,

Vermont, Victoria 3133

Australia

A confirmation email will be sent once this has been received and payment has been processed.

Your results will be processed and returned to you by email within 21 working days and will include an invitation to book your consultation if it is part of your test.

The MARS III BioResonance machine is listed as a medical scanning device class 11a according to ISO EN 13485
